

## JOB POSTING

### Safety Professional (Colorado)

SEMA Construction, Inc. has an immediate opening for a Safety Professional for heavy civil construction projects throughout our Rocky Mountain & Texas Districts, specifically (CO, AZ, NE, NM, TX). This position will require 70% travel to project area sites.

#### Major Areas of Responsibilities Include:

- Execute and implement SEMA Construction, Inc.'s Health and Safety Program.
- Provide ongoing training for employees to understand, recognize and control health and safety hazards to improve working conditions/practices.
- Identify and correct potential hazards by inspecting jobsites, facilities, machinery and safety equipment.
- Ensure that projects comply with OSHA and MSHA health and safety regulations, FRA regulations and SEMA policies and procedures.
- Request and direct the installation of safety devices on equipment, if applicable
- Maintain and apply knowledge of current safety policies, regulations, and construction processes.

- Investigate work related incidents/accidents to determine their causes (root cause analysis) to prevent recurrence.
- Interview subcontractors and their employees to learn about their work to prevent or eliminate potential hazards.
- Implement corrections to remedy safety concerns or observations found during safety inspections.

## Requirements:

- Bachelor's degree from a four-year university or comparable related work experience
- 3-5 years of experience as a Safety Professional in heavy civil construction or related field
- Experience and familiarity with highway and bridge construction including:
  - OSHA 1926 and 1910 Standards
  - Roadway and railroad worker protection regulations
  - Heavy equipment including cranes
  - Trenching and excavation
  - Fall protection
  - Confined spaces
  - OSHA recordkeeping

SEMA Construction, Inc. offers competitive wages and benefits to all employees. SEMA Construction, Inc. is an Equal Opportunity Employer.
