

Matrix Design Group, Inc., an employee-owned planning, engineering and environmental consulting firm is actively searching for a mid-level Project Engineer to join our Development Services Group in our Colorado Springs office.

Responsibilities:

- Design land development projects for residential, commercial and municipal development.
- Prepare and process construction plans for approval.
- Prepare detailed grading, roadway, water, and sewer plans using AutoCAD and Civil 3D.
- Complete hydrology and hydraulic analysis, drainage reports, and storm drain design.
- Prepare supporting calculations, construction specs, and permitting in various jurisdictions.
- Support construction efforts with construction bid review and periodic construction field inspection.
- Work within defined scope, schedule and budget parameters.
- Communicate as appropriate to director of development services and project team concerning questions, concerns, progress and results.
- Coordinate with other disciplines and locations as necessary.
- Assist with proposals and client management as necessary.
- Perform business development activities through maintenance of positive client relationships.

Qualifications:

- BS degree in Civil Engineering required
- Colorado PE preferred (if PE is not from Colorado, ability to obtain CO PE within one year).
- 8 years of experience with an emphasis in development services.
- Experience writing drainage reports and performing utility design in Civil 3D required.
- Ability to take direction and work independently.
- Outstanding communication and presentation skills.
- Strong technical writing skills.
- Proficient in Microsoft Office.
- Proficient in the following traffic engineering software a plus: Synchro, HCS, RODEL.

All interested applicants must complete the online application and submit along with a resume to <http://www.matrixdesigngroup.com/careers-matrix> .
